

Satellite Universal Mount

CLICK IN design
suits STARLINK Gen 2 Pole.

Model No: FB607310v2

Hills Antenna FB607310v2 Satellite Universal Mount has been designed for multiple installation applications.

Version 2 has been improved to allow a Starlink Gen 2 pole to click into place, no need for L Bolts to secure it to the mount.

The FB607310v2 is made from galvanised steel and powder coated for an extra layer extra protection.

Its unique black powder coated finish blends in nicely with its surrounds.

Can be used with or without the telescopic stay bars (included).

Either option offers a sturdy mount for different types of Satellite Dishes and Antennas.

All accessories are included in the kit to allow for easy assembly.

Version 2 with the new *CLICK IN* design for Starlink Gen 2 poles.
